

Manage your network at a low cost with LorientPro

LorientPro

Software by LUTEUS

Monitor your Information System

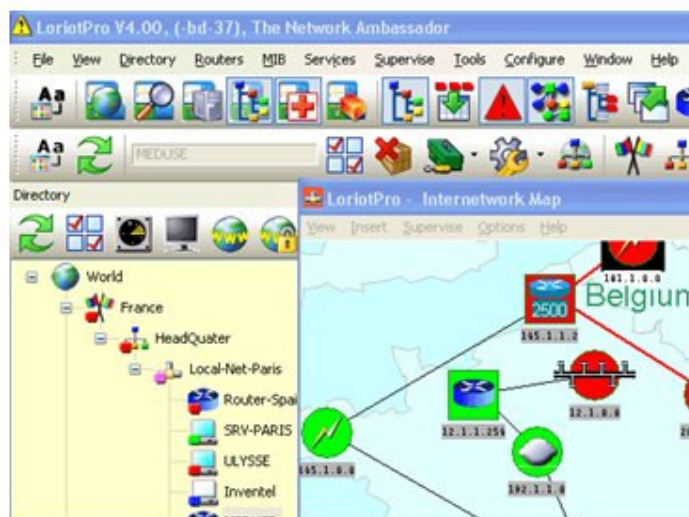

LorientPro is a flexible and scalable **network management** and **monitoring software** solution which enables quality control of your networks, information systems and smart infrastructures. We are determined to provide you management solutions with outstanding price/features ratio and effortless exploitation that guarantees low total cost of ownership.

LorientPro has a Windows based user interface but can manage and monitor heterogeneous environment, thanks to the SNMP standard, including network devices like Ethernet switches, wan routers, ups, intermediate systems with servers and middleware up to the higher application layers, databases and web servers.

AXA Assistance uses LorientPro and Syslog collector software for collecting and filtering the security log of its worldwide distributed PIX firewalls.

Thales IS Aeronotical Service Department provides LorientPro to its customers for monitoring its AERMAC messaging solution.

FEATURES

- ✓ Graphical User Interface Characteristics
- ✓ Directory of network and system resources
- ✓ Host Management
- ✓ Host with dynamic IP address support
- ✓ Router Management
- ✓ Router Tree
- ✓ Active View Box
- ✓ Router troubleshooting - Trace Route Discover
- ✓ Router troubleshooting - InterNetwork path route
- ✓ Cisco Routertroubleshooting - Cisco ISDN Stats
- ✓ Cisco Routertroubleshooting - Cisco ISDN call collector
- ✓ Cisco Routertroubleshooting - Cisco IOS configuration surveyor
- ✓ Ethernet Switch management
- ✓ Spanning Tree Monitoring
- ✓ IP Network topology discovering
- ✓ IP Scanner
- ✓ NetBIOS Name Resolver
- ✓ Trace Route Discover
- ✓ Connectivity and availability monitoring (polling)
- ✓ The Health Control Center
- ✓ Monitoring networks, systems and applications
- ✓ Monitor network applications
- ✓ System process monitoring - Process Surveyor
- ✓ Topology Map and Active View
- ✓ Inter-Network Map and sub-Map
- ✓ Miniature Map (Mini-Map)
- ✓ Directory Map
- ✓ Active View
- ✓ Performance management, load measurement
- ✓ Linear real time Graphic
- ✓ Trend Graphic
- ✓ Vumeter Graphic
- ✓ MIB management
- ✓ MIB Database and MIB tree
- ✓ SNMP walker
- ✓ Advanced SNMP Query)
- ✓ Event and SNMP Trap management
- ✓ Event management
- ✓ Trap (SNMP v1) et Notification (SNMP v2c) management
- ✓ Trap simulator
- ✓ Reporting
- ✓ WEB Remote Access
- ✓ Interface with Databases
